Frage (öffentlich)

How can I grant my aggregator (magnalister) access to my Octopia seller account via the REST API?

Lösung (öffentlich)

Follow this step-by-step guide to grant your aggregator access to your Octopia account via the API:

- 1. Open the API Credentials Management Page**
Go to the following URL:
[1]<https://developer.octopia-io.net/api-credentials/#linkAgreeToSeller>
- 2. Select Your Aggregator**
Choose your aggregator (magnalister) from the dropdown list.
If it is not listed, click on: My aggregator is not on this list. Then "My aggregator provided me its clientId"
- 3. Enter Client ID Manually**
Enter the Client ID provided by your aggregator.
For magnalister, the Client ID is: magnalister
Accept the Terms & Conditions and click on: Confirm my aggregator clientId
- 4. Confirm Access**
You will now be asked if you want to grant your aggregator access.
Click on: Proceed with seller authentication
- 5. Log into Your Seller Account**
A pop-up window will open.
Enter your Octopia login credentials:
- 6. Final Access Confirmation**
Octopia may detect that you're not using the main account - this is normal.
Confirm by clicking: Yes, continue
- 7. Access Successfully Granted**
The aggregator (magnalister) now has access to your Octopia seller account:
