Amazon, Invoice-Upload, Upload, Invoice, back, retroactively

#### Frage (öffentlich)

Can invoices be uploaded to Amazon retroactively?

#### Lösung (öffentlich)

magnalister checks retroactively for the last 7 days if there are new invoices in your orders. These are automatically uploaded to Amazon - starting with the oldest to the newest order.

If you have older Amazon order numbers for which no invoice has been uploaded to Amazon yet, please send a request with all Amazon order numbers concerned to our support at support [at] magnalister.com. We will then check the workload and send you a cost proposal.
